for youth and camping
ministry events.*

Central Standard Time: Matt and Charlie

centralstandardtime

Central Standard Time is a duo of Christian singer-songwriters from eastern Iowa. CST performs original music on acoustic guitar. They also perform meaningful music by other artists, as well as a full repertoire of praise and worship music and camp songs.

Matt Hibbard and Charlie Rod met while working at EWALU Bible Camp in the summer of 1993. Their friendship and musical collaboration flourished during many summers at camp and while attending college together. While at Wartburg College, Matt and Charlie first began to perform together, and made several appearances at coffee-houses, Campus Ministry events, and concerts.

Since their days at camp and in college, Matt and Charlie have gone on to release several CDs of original music, perform numerous concerts, play on live radio, and lead many large-group youth ministry events, including camp retreats and LYO gatherings.

Central Standard Time is a great choice to lead music at your youth or camping ministry event. Matt and Charlie are accomplished musicians and experienced songleaders, and both have extensive experience as youth directors and at camps. CST provides great music to help make your event exciting, meaningful, and fun!

For large-group ministry events and some concerts, CST often enlists the help of a pianist, bass player and/or drummer. The additional band members are also veterans of camping ministry. Their contributions to the band add a lot of extra energy and a fuller sound, which works great for large-group retreats and large-venue concerts.

In addition to leading music at your event, CST is available to give messages, lead workshops, and provide worship music. We may even be able to write an original song to fit the theme of your event. Contact CST at the address, phone number, or email address provided to discuss your event, CST's services, and fees. We know churches and camps often have pretty tight budgets, and we're willing to work with you to fit within the budget for your event.
